

# GENOA TRANSFORMER © GS ENABLING BLACKBERRY WORK FOR GOOGLE SYNC

Secure Business Cloud Service.

GENOA Transformer© GS is a Business Cloud Service designed to securely enable interoperability between Google G-Suite (Google Sync) productivity suite and BlackBerry® Work, **allowing Google customers to use BlackBerry Work's industry-leading PIM functionality.** More importantly, it's architected to accomplish this with minimal configuration and optimal security.

Those interested in using Google G-Suite, looking for a **secure PIM solution** for e-mail, calendar, contacts with secure intranet, and file access to corporate data, can use BlackBerry Work to introduce the most secure PIM solution.
